MORE SUPPORT FOR UNIVERSITY ASKED

CHAMBER OF COMMERCE DIRECTORS TAKE ACTION TUESDAY MORNING

MAY BRING LECTURERS HERE

Co-operation of Other Towns In County Asked—To Close List For Stove Factory

More liberal appropriations for State University in all its departments by the state legislature urged by the Chamber of Commerce in a resolution adopted this morning. Notice of the action is to be transmitted to the University authorities and to the representatives of district in the legislature.

This action resulted from a letter from the University asking for for a minerological survey. The letter stated that the funds appropriated were inadequate and asked donations in order that this important work might go forward. President Hurt declared that he was opposed to passing the hat for a state institution; that the State of Texas was rich enough and big enough to support its institutions adequately. Other directors present at the meeting this morning concurred with Mr. Huff's view and a resolution was ordered drawn up to embody this for transmission to the University authorities and to the representatives of this district in the legislature. Discussing the proposal Mr. Huff said that the people of Texas had heretofore pointed to the fact of the immense school fund and had neglected to provide adequately for the university. What must be recognized now, he said, is the fact that Texas is pretty nearly at the bottom of the row in literacy.

Farm Lectures Planned.

The directors this morning in view of the co-operation of Electra, Iowa Park and Burkburnett in bringing here a party of lecturers sent out by the International Harvester Company for a one or two days campaign of each county lecturing on agricultural matters. These men will be practical farmers and their talks will be on timely subjects. Their salaries are paid by the harvester company and their railroad fare by the railroad companies. They plan to visit about thirty-five counties in Texas. Commercial organizations in the territory they cover are asked to furnish automobile transportation and for meals and lodging while in each county. Meetings will be held in school houses and other available places. The cost for the campaign in Wichita county it is estimated would be less than $100 of which the Chamber of Commerce proposes to bear half if the other towns will share the remainder of the expense.

Stove Factory Proposition.

The directors heard a report from the committee named to negotiate with Mr. Zeigler in reference to a proposed stove factory and the agreement made with Mr. Zeigler was indorsed and it was declared the sense of the meeting that the Chamber of Commerce should undertake to secure the remainder of the stock to be subscribed amounting to $7,000. The following committee was named to solicit subscriptions: J. A. [illegible], M. A. Brin, P. H. Pennington, [illegible] Marlow, T. B. Noble, A. L. Huey, Myles O'Reilly. The committee was urged to raise the full amount of stock as early as possible so that arrangements might be made to begin work on the plant immediately.

Directors present at the meeting this morning were: Messrs. [illegible] Kemp, Pennington, Hines, [illegible] O'Reilly, Ward, Hardy, Boyd, [illegible] Blair.

CHRISTMAS PARCELS FOR AUSTRIA CAN BE SHIPPED

Service Had Been Suspended On Account of Lack of Transportation Facilities

By Associated Press

Washington, Dec. 1.—Instructions were today being sent by Postmaster General Burleson to postmasters throughout the country, directing them, pending further notice, to accept for mailing to Germany and Austria-Hungary all packages which conform to prescribed conditions of the international parcels post service.

This service between the United States and the countries named had been suspended because of the lack of transportation facilities due to the war. Resumption of the service will make it possible to send Christmas remembrances to European countries which otherwise would have been impossible.

Parcels post packages are now mailable to all countries with which the United States has parcels post conventions except Belgium, Turkey and Northern and Northeastern France where military operations prevent the resumption of the service.

Shortly after the war began, Germany, Belgium and France asked that the service be suspended. Neither Austria nor Hungary requested suspension, but the war caused a practical stoppage of the service.

MANY BONDS VOTED DURING LAST FISCAL YEAR

By Associated Press.

Austin, Texas, Dec. 1.—During the fiscal year ending August 31, 1914 the attorney general's department has approved and the comptrollers department registered bonds to the amount of $23,446,165 as compared with $13,088,860 for the previous year. This is an increase of $10,357,305 this fiscal year, which, it is said, breaks all records of bonds issued in Texas. While these bonds were issued and registered prior to the outbreak of hostilities in Europe it is considered an excellent index of the development of Texas.

The largest increase was in municipal bonds, the total amount issued this fiscal year having been $22,436, an increase of approximately 100 per cent over the same [illegible] last year. These bonds were [illegible] improvements, erection of buildings, construction of [illegible]wers, etc County bonds [illegible] to the amount of [illegible] and district bonds [illegible] irrigation and drainage [illegible]6,170; independent school [illegible] 079,100; and common school bonds, $807,615.

FOREIGN COMMENT ON MONROE DOCTRINE

AUSTRALIAN NEWSPAPER CITES EX-PRESIDENT TAFT'S RECENT SPEECH

POSSIBLE CANADIAN INVASION

View That Landing of Hostile Troops Would Not Transgress Doctrine Is Criticised

By Associated Press.

Melbourne, Austria, via London Dec. 1.—12:30 p. m. The Melbourne Age referring to the views of Former President Taft concerning the Monroe Doctrine expressed recently at Montclair, New Jersey and particularly his statement that the United States would not be compelled by the terms of that doctrine to intervene if Canada should be attacked by the Germans has this to say:

"If this interpretation presents the views of the government of the United States, an event of first importance to the entire civilized world has taken place. If the Wilson government shares Mr. Taft's opinion it is very clear that the Monroe Doctrine is a thing of the past and the United States has abdicated the position she has been zealously guarding for upwards of 80 years."

What Ex-President Said.

In his address at Montclair last Friday night Ex-president Taft said that while the landing of troops in Canada by enemies of Great Britain would not constitute violation of the Monroe Doctrine an effort to establish a new form of government in case of victory would violate that doctrine. Mr. Taft said:

"All the Monroe Doctrine would consistently require of us would be to insist that when if the war is over, if Germany were successful, she could not take over the territory of Canada and overthrow her government and establish her own there or take any oppressive measures which would have a similar effect; but we would not object to her exacting indemnity if she wer[illegible]

[illegible] UNIVERSITY NOW SOUGHT

Prominent Educators Are In City Working In Behalf of Waxahachie School

Local Presbyterians are much interested in the movement that is on foot for the endowment of Trinity University at Waxahachie, representatives of the college being at present in the city in behalf of that movement.

Trinity is one of the oldest colleges of Texas and one of the few that stand in the first class, that occupied by the State University. It has a strong faculty, a large student body—from 300 to 400 annually—and has given to the State a large proportion of its leaders, especially Presbyterian ministers. While occupying first rank it is realized that with the greater demands upon modern educational institutions, a largely increased endowment must be secured to provide adequately for the future

Dr. S. H Hornbeak, president of the university and Dr. J. E. Clarke, of Nashville, Tenn, are spending several days here in the interest of this fund. Dr. Clarke is one of the secretaries of the Presbyterian College board of New York and is giving some time to the local enterprise because of its importance to the church. Asked about the work, he said:

"The college board looks upon Trinity University as one of the very best and most promising of the more than sixty Presbyterian colleges The educational standards at Trinity are so high and its management is on such a thoroughly business like basis that the college board has unusual confidence in the institution. Just now we are seeking to secure a total fund of $325,000, this amount being considered essential to provide adequately for the immediate neds, but even more must be had before Presbyterians will be satisfied that they have done all that they ought to do for a college worthy of your great State. Of the amount we are raising $150,000 must be pledged before Dec. 31 or all that has been promised will be void, for the pledges are all conditional. We still have a little less than $15,000 to raise and only a month left and we have absolutely no person or group to fall back on. We must secure the total and believe we will, although it is a very hard time to secure such pledges The Presbyterians of Wichita Falls have treated us royally and responded very liberally in view of the conditions. They have recorded us great encouragement and we are confident that Texas Presbyterians will not let this enterprise fail."

BEGINNING OF NEW BATTLE IN FLANDERS

GERMAN ATTACK ON YPRES MEANS NEW EFFORT TO CUT LINE

LITTLE NEWS FROM EAST FRONT

Austrians Being Pushed Back On Cracow Where Siege Preparations Are Under Way

By Associated Press.

London, Dec. 1.—Unofficial reports that the Germans again have attacked Ypres marking the beginning of a great battle, received no confirmation in today's communications from the French and German war offices. The French statement contains a vague reference to renewed German attacks in the region in which they have been expected to try to break through to the English channel. It is said that the enemy was showing considerable activity north of Arras.

Germany continues to give no intimation of a reversal by the Russians. Today's announcement says 9500 more prisoners have been taken in the engagement near the Vistula River which were said yesterday in Berlin to have resulted favorably for Germany. Official Petrograd maintains its attitude of reserve. Such reports as are made by any of the three nations engaged in the East deal only with particular phases of the campaign so that the picture as a whole is blurred.

The Russian advance is pushing the Austrians back into Cracow. Information reaching Lemberg is that the Austrians are evacuating position after position with great losses. It is stated that the Austrian line of retreat is strewn so thickly with dead that the Russians have not time to bury them. The cold is so severe that the bodies are frozen. German officers are said to be in supreme control at Cracow. They are placing machine guns, light artillery and wireless apparatus, it is reported, on the cathedral and other historic edifices drawing the fire of the Russians to these buildings. Recent arrival from the provinces of the Galicia state that the inhabitants of all the regions evacuated by the Russians are facing famine.

The fighting in the Balkans, in Turkey, in Caucaus, in Egypt and near the Red Sea seemed almost to have been lost sight of. Seldom since the beginning of the war have the reports from all quarters been so vague. The reported nearness of British and German fleets in the South Atlantic presents the possibility of another naval battle.

The commission which was sent by the government to help arrange the election reported to Secretary Bryan last week that it had been the most successful held in the republic.

A regiment of marines aboard the transport Hancock was held at Port Au Prince during the Haitian revolution and until the election was held. The Hancock is now in Dominican waters.

PURE MINCE MEAT
READY TO USE

Yes, I know that the word best is overworked when describing articles in a business talk like this but I have always aimed at telling the truth in everything I say in this newspaper and to DO that in this case I must use the word best. There isn't anything about Heinz's Mince Meat that can be improved or Heinz would do the improving. It takes great care and skill to maintain the quality that the name Heinz implies but you will never find any fault wtih this mince meat. One pound will be just as good as another —always the best.

When hearts are full of yearning tenderness
For the loved absent whom we can not reach
By deed or token, gesture or kind speech,
The spirit's true affection express:
When hearts are full of inherent distress,
And we are doomed to stand inactive by,
Watching the soul's or body's agony
Which human effort helps not, to make less—
Then like a cup capacious to receive
The overflowings of the heart is prayer;
The longing of the soul is satisfied,
The keenest darts of anguish blunted are;
And though we can not cease to yearn or grieve,
We yet have learned in patience to abide

Don't write it X or Xmas.

If you want to be a patriot and help pay this war tax, cultivate a habit for chewing gum. Every single package that sells for five cents has to bear a revenue stamp. Luxuries come high, but wev'e got to have 'em.

If it be true, as statistics tell us, the people of the United States are becoming more highly educated and enlightened, why is it that crime is also on the increase?

It required $1,116,000,000 to pay the expense of the American government the last fiscal year. The year before that the expense was $1,098,678,788. That don't look good to us Democrats who were accusing the Republicans of extravagence in governmental affairs, and we can expect to be reminded of this often enough during the next presidential campaign.

With fifty recruiting stations and a population of 600,000 people, Manchester, England, we are told by press dispatches, has only succeeded in persuading 400 recruits to fight the Germans and Austrians. That shows to some extent the amount of enthusiasm being manifested by the average Englishman in this European war. They have cultivated the idea that the other fellows—the Belgians, the French, Russians and Japs—should be willing to make targets of themselves.

THE COLOMBIAN INCIDENT.

It seems that Great Britain is getting somewhat worried over Colombia's neutrality.

German agents are reported to be operating a powerful wireless station in that country.

Charles Roberts, the British undersecretary of the colonial office, intimated in the house of commons recently that his government proposed to appeal to the United States to use its good offices to compel our South American neighbor to maintain strict neutrality.

It is to be assumed that Great Britain would predicate such an appeal on the Monroe doctrine, but if so Great Britain would be placing an interpretation on that doctrine which its most enthusiastic sponsers would scarcely care to concede.

As to the attitude which South and Central American nations may assume toward each other, or toward foreign countries, the Monroe doctrine has nothing to say.

Its chief purpose is to prevent their colonization of conquest by European powers.

If Colombia has violated her neutrality, that is her business, and while we sincerely regret such delinquency on her part, the Monroe doctrine implies that we go no farther than to give her friendly advice.

If England, or the allies, were to become provoked to such an extent as to take "drastic steps," that is their business, and the Monroe doctrine would not admit of interference on our part unless such "drastic steps" involved colonization and conquest.

Certainly, the Monroe doctrine is rather elastic and could easily be strained so as to aggravate the sitution materially.

A rigid interpretation of it, however, does not place the Colombian incident in the category of dangerous occurrences except as it might be used to provoke trouble.

Both the entente and the German alliance are to be pardoned for mild attempts to persuade the United States to show its hand as favoring either one side or the other, but this government does not propose to be drawn into the holocaust.

If circumstances should force us to take up arms, it seems highly improbable at this time, we propose to do so under such conditions as will reclude the necessity of issuing White Books, Blue Books, Gray Books, Orange Books or any other colored books to pustify ourselves before posterity and the world.

"NEPTUNE'S DAUGHTER" MAKES BIG HIT AT MAJESTIC

Record breaking crowds attended the Majestic yesterday afternoon and last night to witness the presentation of the seven reel film production "Neptune's Daughter" in which Annette Kellerman, whose figure has won for her the title of the "perfect woman" had the title role. The theatre was packed to its doors all the time the film was being shown and never has a more enthusiastic reception been given a film in this city.

Wichita Falls picture play fans had heard of the film and it came here well recommended, so that big crowds were expected. The picture will be presented again this afternoon and tonight.

"Neptune's Daughter" is without question something new in the line of film entertainment. The novelty does not lie in any new or strange complications of plot, nor have the producers discovered any new dramatic principals. Instead they have realized that one of the chiefest assets of a motion picture is good scenery. Not only are the ordinary events in this production set in the most attractive surroundings, but, there are many effects which have never before been attempted.

Imagine a limestone cave festooned with glittering drapery of stalactites and stalagmites and containing a pool of water as clear as crystal. Through the water a mermaid comes slowly swimming and holds conference with an old witch of the sea who sits on a rocky ledge surrounded by awkward marine animals. That fact that the mermaid is Annette Kellerman will but add to the interest of this gorgeous production.

This scene and others in the same setting were made by an arrangement of arc lights in one of the limestone caverns near Harrington Sound in Bermuda. However, laborious as it was, it was well worth it. The result is one of the most beautiful flashed on the motion picture screen.

Of those who watched Neptune's Daughter the attitude was rather like those who came to scoff and remained to pray. So brilliant a star as Annette Kellerman might easily be used as the only attraction of the picture. Simply to have her diving and swimming about would provide absorbing entertainment, but, with entire respect to Miss Kellerman, her settings are as attractive as she is herself. Splendid effects follow each other in a way that is almost dazzling. But it is as impossible to describe them accurately as to make a man born blind appreciate color. They are visual effects and must be seen to be appreciated.

In presenting Annette Kellerman "the perfect woman," in the spectacular pictorial production, "Neptune's Daughter," the producers have reason to believe that they uttered the last word in photo play art. The wondrous beauty of the story, the enchanting scenes afforded by the Bermuda Islands with their coral reefs, submarine grottos, semi-tropic verdure and the vast expanse of the wide Atlantic; the company of over 500 actors, headed by Miss Kellerman, who, aside from her marvelous acquatic feats, which she has many opportunities to display in this drama, proves that she is also a splendid actress, a graceful dancer, an expert swordswoman and mistress of a hundred arts which contribute to the success of the production.

H. R. Thompson of this city, a brakeman on the Wichita Falls & Northwestern suffered the loss of his left foot when he fell from a freight car near Mangum, Okla., last night. Thompson had set the brake on the car and had started to climb down, according to one report which reached here, when he fell and the car wheel ran over his foot. He was taken to Mangum where his wound was treated. His mother with whom he lives at 903 Austin street left for Mangum this morning.

The charges of burglary against Messrs. Verking and Calloway were dismissed as a result of an examination before Justice Jones this afternoon. Evidence that would warrant binding the young men over to the grand jury was lacking.

A Kidney Remedy Advertisement Brought Great Happiness

I take pleasure in stating that I have used Dr. Kilmer's Swamp Root, that I was greatly benefited by the same and have used it in my family. I had a son, when quite young he suffered from bladder or kidney affliction. I called in my physician, he attended him but did him no good. Almost by accident I noticed an advertisement about the curative properties of Dr. Kilmer's Swamp Root. I procured a bottle and gave it to him according to directions. It cured him of what we thought was almost impossible and the same with others of my family. I have such strong faith in Swamp Root that I have never done without it in my family since the wonderful cure of my son as well as myself. I recommend it to all who suffer from kidney or bladder troubles and I am led to believe that it is one of the best medicines for the purpose for which it is used, that has ever been discovered. This is my experience from the use of Swamp Root. Wishing the promoters of this wonderful medicine a large sale to the suffering public, I am, Yours respectfully, W. H. McAfee, Atlanta, Ga. 63 Broyles St. Witness, E. O. Williams, Notary Public.

Letter to Dr. Kilmer & Co. Binghamton, N. Y.

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Wichita Daily Times. Regular fifty cent and one dollar size bottles for sale at all drug stores. (Adv't)

An ordinance requiring all theatres to employ men ushers was sent to the council last night at the instance of John C. McDonald, chief of the bureau of municipal fire prevention.

"Girl ushers are not equal to men in times of emergency such as fires and panics," said Mr. McDonald.

At The Theaters

The Lydia Margaret

Angelo Armento and Brother, an acrobatic act of ability is on the bill opening at the Lydia Margaret for the first half of this week. These tumblers have an excellent act, one that varies from the usual vaudeville stunts and made quite a hit at their opening performance Also on the bill are Lawrence and Lawrence, society dancers who dance different Their steps are new and of a variety that is pleasing Today's feature picture is a two part drama "The Mystery of Grayson Hall."

There was only one who questioned the mysterious death of Howard Grayson. Edna, his ward, had a woman's intuition that all was not right What is a woman's intuition worth under such circumstances? Evidence pointed to the death of old Grayson as a natural one. Every one believed that it was except this girl Solely because of this "hunch" a detective was brought into the case And there was a secret to Grayson's mysterious death. Ordinary detective methods, used by the coroner, had failed to yield a theory that seemed to fit in with the facts

No wonder; for rarely has a more singular, dark crime been conceived in the brain of man Foxhall Keene, noted New York lawyer and detective, with his familiarity with the mind and ways of degenerates, with his up to the minute knowledge clears up, in short order, one of the most puzzling situations which has ever been recorded in the history of murders In the unravelling of the web, a story of rare dramatic power, jealousy and avarice is laid bare. The story, as a whole, is the work of a marvelous imagination. Every role has been assumed by a finished artist The piece has been staged with the same care and skill which has always characterized Universal productions

The Majestic.

"Neptune's Daughter" showed yesterday at this theatre to an unprecedent crowd, each show seeing a capacity house and last night numbers were forced to stand for part of the performance. This feature will be shown again today.

The Empress

"Our Mutual Girl" is here again today and the usual charming picture is to be expected. The Mutual Girl Weekly, telling the story of the succeeding reel which is being distributed to the patrons of the theatre increases interest and also tells many little intimate facts concerning "Our Mutual Girl." Winnifred Greenwood and Ed Coxen are featured in an American, "Down by the Sea"

Nell, a fisherman's daughter, has given her promise in marriage to Jim, a young fisherman. A strong affection springs up between her and the child of some summer cottagers, and when little Ruth is taken violently ill, Nell nurses her back to safety In gratitude, Dean Ronalds, Ruth's older brother, insists that Nell attend a select school in the city at his expense She refuses, but Jim, thinking only of Nell's advantage, persuades her to accept On completing the school course, Nell learns that her benefactor is in love with her But she rejects his offer of marriage and returns to Jim Her old sweetheart discovers that Nell really loves Ronalds, but that a mistaken sense of honor bids her remain faithful to her first affection. Jim goes to Ronalds and explains the sacrifice he is about to make, which Nell must never know Then he tells the girl that he is going away to marry another woman, and leaves her to the man of her heart's choice

The Gem

Tom Mix and Goldie Colwell are featured in "The Way of the Redman," a Selig drama, and G. M Anderson is seen in "The Strategy of Broncho Billy" A two part Biograph drama, featuring Louise Vale and George Morgan completes the program Death before dishonor is the choice of a young factory girl, but she is saved from both by a young sea captain and carried into another life, in which she is happy until an old enemy reappears in the person of her former employer whose business interests have brought him to the far corner of the world where the new Eden is. The strange circumstances of his coming, his discovery of the serpent in that island of paradise, and the rapid series of events which culminate in the vengeance of the sea, form the second half of this dramatic story, not the least of whose charms is the variety of unusual and richly contrasted scenic effects.

NOTHING BETTER FOR WEAK WOMEN

"I Never Spent Any Money That Did Me So Much Good As That I Spent For Vinol."

Bellefontaine, Ohio—"I wish every tired, weak, nervous woman could have Vinol for I never spent any money in my life that did me so much good as that I spent for Vinol My nerves were in very bad condition making me very weak, tired and worn out and often drowsy headaches. I had tried cod liver oil, doctor's medicines and other preparations without benefit

"One day a friend asked me to try Vinol I did and soon my appetite increased I slept better and now I am strong, vigorous and well and can do my housework with pleasure"—Mrs. J F. Lamborn, Bellefontaine, Ohio.

Nervous, weak, tired, worn out women should take Mrs Lamborn's advice and try Vinol for there are literally thousands of men and women who were formerly run down, weak and nervous, who owe their good health to Vinol

It is the medicinal, tissue building elements of the cod's livers, aided by the blood making, strengthening influence of tonic iron, contained in Vinol, which makes it so efficient in all such cases Miller Drug Store.

Note—You can get Vinol at the leading drug store in every town where this paper circulates

HIGH SCHOOL PEACEFUL FOLLOWING MONDAY'S SCRAP

Faculty Has Not Yet Acted, But Peace Officers Are Taking Hand in Situation

The stern hand of the law now appears at the high school, as a sequel to the affair of Monday morning when members of the senior and junior classes clashed Probation Officer C C Sreiton is today conducting an investigation of the affair and the police are also said to have been notified Whether the plan is to put any of the belligerents into durance vile has not been ascertained

The faculty has not yet taken any decisive action but will probably do so shortly A representative of the faculty told The Times that while the teachers were glad of the spirit of class loyalty that prevailed, they felt that things had taken somewhat too serious a turn Monday and that the matter could not be overlooked lightly It is reported that one member of the faculty was on the field of battle when the hostilities began and that he suffered some as a consequence, he is said to have been hurt i nthe fracas

The high school roof the impromptu decoration of which was the initial cause of the outbreak is being restored to its normal color, a vivid red, at the expense of the sen iors

There was an effort to do some decorating last night it is understood this being frustrated by the appearance of minions of the law

Classes are proceeding as usual today at the high school and none of the participants in the melee have as yet been dealt with.

Girls Training School Concert

The concert to be given by the Wichita Falls Choral Society for the benefit of the Girls' Training School is in the final stages of preparation. The last two or three rehearsals have had a full attendance, and have added greatly to the proficiency of the chorus The date fixed for the concert is December 8th at 8:15 p. m ; the place, the opera house

This concert will appeal to two classes of people: first, music lovers, to whom a rare treat is promised; and second, to all those who believe in this Training School for girls, to whom opportunity is given to help that cause Therefore the citizens of this city who have at heart the welfare of the choral society or the Girls Training School, or of both, should not miss this opportunity to show their substantial good will

Tickets may be obtained from any member of the Choral Society or from most of the Clubs of the town.
